

UNI-E

Variable Speed Drive Home Booster Pump

Benefits

Applications

Landed properties

Shower & bathroom

Household

Features

- Built-in overload protection
- Easy set point adjustment, plug and play capability
- Actual pressure readout
- Auto restart on power failure
- Low voltage dry run float sensor connector
- Dry running (secondary) protection with built-in VSD
- Easy installation, setting and operation

Technical specifications

Supply Voltage :	1 x 220 - 240V, 50Hz
Insulation Class :	F
Enclose Class :	IP20
Liquid Temperature :	0°C to 90°C

Pump type	Dimension (Length x Height x Width mm)	Pipe Connections	
		Suction	Discharge
UNI-E CM 3-5	350 x 650 x 200	Rp 1"	Rp 1"
